

AGILITY IN AI RELIES ON YOUR ABILITY TO TRUST YOUR DATA CENTER'S INFRASTRUCTURE

When the Opportunity Is This Big You Need a Scalable Data Center Infrastructure Partner You Can Count On

Vision Technologies believes your Data Center projects should have an 'easy button' to scale with AI

AI is rapidly evolving the data center landscape. Complex AI demands strain your data center's cabling, security, and deployment speed. Your business now relies on denser, more complex infrastructure needs.

You need a Data Center infrastructure partner who has already been tested by the challenges of some of the biggest hyperscale organizations in the world to plan your project properly, execute according to protocol, speed up deployment, scale across locations with your needs, and ensure your cost stays where they need to be—all while giving you peace of mind.

WHO WE HELP :

- ▶ Multi Tenant Data Center Providers
- ▶ Hyperscale Clients
- ▶ Commercial Companies Focusing on AI

SPECIALIZING IN

-  **Integrated Technology Delivery**
-  **Audio-Visual Systems**
-  **Rack & Stack Design**
-  **Security Systems**
-  **Maintenance & Support**
-  **Wireless & DAS**
-  **High Density Cabling Infrastructure**

LEADING INDUSTRY PARTNERS

GSA Schedule 70 Contract # GS-35F-0581R
VA DCJS No. 11-21052

Schedule an Appointment

Our team will learn about your objectives and challenges, then develop a targeted plan to address them.

Execute the Plan

We'll work with you to execute your customized plan, on time and on budget.

Focus on your Business Operations

The only thing better than seamless execution on a data center project is being able to focus on the next advancement while being ready to scale!

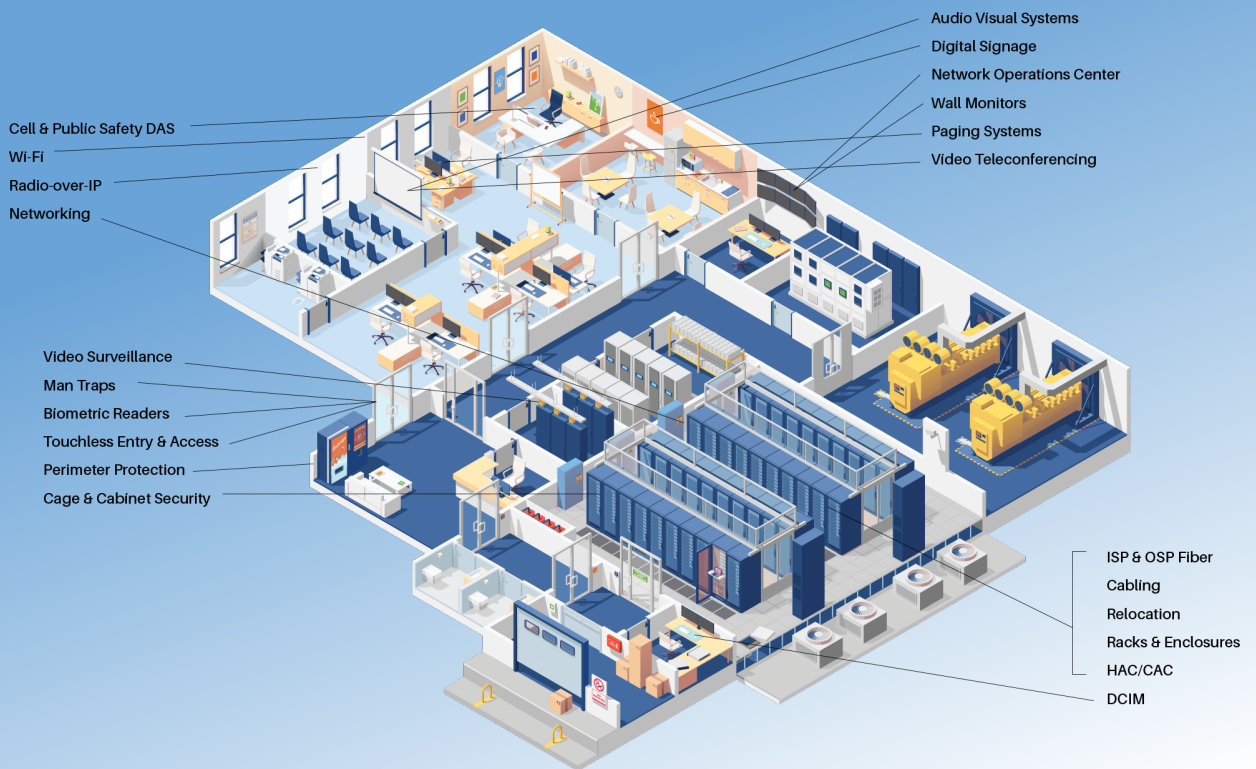

HOW WE HELP

- ▶ Reduce deployment times and accelerate AI innovation with our high-density cabling infrastructure expertise
- ▶ Build data centers in cost-effective locations and benefit

- from our nationwide deployment capabilities
- ▶ Protect your valuable AI data and infrastructure with our comprehensive security solutions

- ▶ Gain peace of mind knowing your AI infrastructure is in the hands of experts who understand your unique needs
